

Capture Asia's long-term growth potential

Our experience in managing Asian equities has taught us that it is important to look through short-term market sentiment and irrational behaviour of market partici-

By identifying structural trends, we can position the portfolio strategically, thus allowing for a longer-term perspective, while at the same time adopting a more proactive approach to shorter-term investment themes within the Asian equity markets.

We are committed to continuously exploring trends and themes and identifying the emerging growth potential and exciting investment opportunities in Asia. We are convinced that the key to success and achieving superior investment returns is an active and focused approach.

- High-conviction stock picking
- Thematic-based investments from Asian insights
- Proven investment approach
- Lasting investments that make a difference

Our ambition is to be the leading investor in Asian equities, and we look forward to making a difference for your investments.

Our global insights and proven investment strategy set the foundation for long-term value creation.

The strategy combines long-term trends and short-term themes with thorough stock picks in order to generate an attractive, long-term return for the patient investor. The portfolio consists of 40–70 stocks. The strategy has a concentrated approach based on a narrow selection of carefully analysed investment themes. Investments are made in listed equities in Asia excluding Japan. This fact sheet has been prepared by C WorldWide Asset Management Fondsmæglerselskab A/S and is for information purposes only.
